TRI-COUNTY RURAL ELECTRIC COOPERATIVE, INC.

POLICY BULLETIN NO 3-8

SUBJECT: INSTALLATION OF TEMPORARY SERVICES

I. POLICY:

The cooperative will serve a temporary service for all members needing service for construction purposes only. A service of this type may be energized for one (1) year only. At the conclusion of one (1) year, the temporary service may be extended an additional one (1) year upon satisfactory electrical inspection. The Cooperative may request a copy of the electrical inspection prior to granting the extension. Temporary services may not extend beyond two (2) years.

II. PROCEDURE:

A. For construction sites where permanent electric service will be later required, a temporary electric service will be energized by the cooperative under the following provisions:

1. The location, size and type (underground or overhead) of the building's future permanent electrical entrance must be firmly determined before the temporary service location can be mutually agreed upon.

2. The member must erect a structure for the temporary service equipment that meets or exceeds the cooperative's specifications.

3. The member must install the temporary service equipment according to the current National Electrical Safety Code and meet any other requirements listed on the cooperative's specification sheet.

4. The installation must be approved by a qualified electrical inspection agency before the service can be connected.

B. For construction sites where permanent electrical service will not be required upon completion, a temporary service will be energized by the cooperative under the following provisions:

1. The location of the temporary structure shall be mutually agreed upon.

2. Requirements 2, 3, and 4 of A above shall also be met.

3. The charge of installing and removing cooperative facilities to the temporary structure shall be computed by doubling the labor and overhead costs as estimated from the staking sheets.

III. RESPONSIBILITY:

President & CEO or Designee
